

FOUR LEAF CLOVER, INC.

A National Diabetic Supplier

Test Regularly. Stay Healthy.

Thank you for placing your trust with Four Leaf Clover for delivery of your diabetic supplies. Since you are receiving supplies from us, we feel it's important to share with you our purpose for being in the diabetic supply provider business.

- **We are driven by delivering unsurpassed service.** Unlike most other diabetic supply providers, we are not driven by making money. Since diabetes directly affects our family, we understand the critical need for diabetics to receive supplies on time, every time an order is placed with us.
- **We understand how you may feel about changing diabetic suppliers.** Other diabetics who have changed to Four Leaf Clover have felt the same way. However, those diabetics have found that Four Leaf Clover stands by its service commitment as they continue to reorder, with confidence, their quarterly diabetic supplies from us. Our company was founded years ago based upon a solid foundation of trust, dedication, honesty, ethics, and reliability. We promise that we will not waver from our roots.
- **We are professionals at what we do.** Four Leaf Clover was incorporated in 1995. For years, we have sharpened our skills in building a proficient company in processing both Medicare and Supplemental Insurance on behalf of our patients. By processing all the cumbersome paperwork required by Medicare and the supplemental insurance industry, our patients have found 'peace of mind' as we accurately process their diabetic medical insurance paper work.
- **We are Medicare compliant.** Four Leaf Clover has a dedicated team of officers solely responsible to oversee all the complicated rules and regulations required by Medicare. What does this mean to you? It means the next time you're ready to order diabetic supplies, Four Leaf Clover will still be in business to serve you. We take pride in the fact that we have passed all our Medicare audits.

Test Regularly. Stay Healthy.

- **We support The Senior Medicare Patrol (SMP) Program.** The SMP Program educates and empowers diabetics with Medicare coverage to take an active role in detecting and preventing health care fraud and abuse. We support this program because we support your rights to receive your diabetic supplies from a legitimate diabetic supply provider. We also support the SMP Program because it helps preserve the Medicare Program which provides affordable health care coverage to you. Founded in 1995, and Medicare compliant, Four Leaf Clover has always operated within the Medicare regulations in the past; does so in the present; and will remain doing so in the future.
- **We are your primary source for the latest updated information on diabetes.** We feel that it's important to provide you with newsworthy information regarding diabetes, the latest medical improvements in treating diabetes and the latest changes in Medicare policies and procedures.
